RECHOG HOLIDAY PARTY

Happy Halloween

It seems kind of spooky that the end of the year is quickly approaching, thankfully we still have plenty of good riding weather ahead of us and if we are lucky the winter will be mild and just give us what we need for rain.

This month we nominate officers to operate the chapter in 2018. Remember, this time only the four Primary Officers will be nominated and voted upon at November's general meeting. The remaining B.O.D. Officers will be chosen by those elected. A list of the duties of these officers is listed later in the newsletter. If you or someone you know of is interested in holding one of these positions then please take the opportunity to nominate them, if you feel inclined to nominate yourself then *Do It* or ask a friend to nominate you.

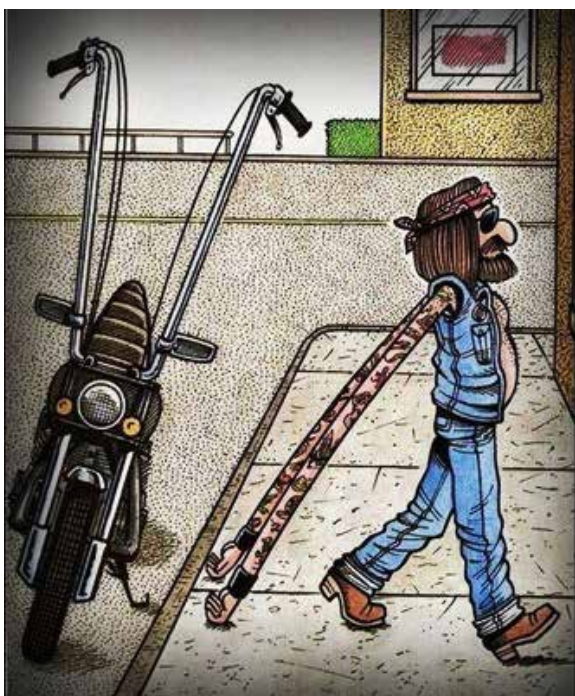

November is the start of the Holiday Season and our last fundraising event of the year! The Berkeley Half Marathon is on the 19th this year and we could use many volunteers. We need 25 for the event this year. At this point we do not have assignments, but as soon as we get a head count sent in they will give us our positions. This is very important for the chapter as the income from these events help keep the chapter operating and it gives the money to have such events as our Spring Picnic and a Fall lunch event (it is in the planning stages). So if you can come out and help, please do!

December starts off with our Holiday Party, this year it will be on the 2nd at the Hilton Round Barn in Santa Rosa. There is a block of 20 rooms held for those of us wishing to spend the night after the party but you must reserve before the cut-off date of October 18th, so reserve yours before they disappear. Call 1-800-486-1542 or online at HiltonSonomaHotel.com and use the group code RECHOG when reserving your room. Rooms: Standard \$109, Pool View \$259, Lanai \$284, King Jr. Suite \$284.

Holiday Party tickets are for sale, the price is \$25 each or \$12.50 for San Francisco Marathon Volunteers. Berkeley Half Marathon Volunteers will also get half off the price of their ticket. *If you helped at both marathons then your ticket will be free.*

That's about all I have for now, remember to call the HOTLINE for last minute additions, changes or cancellations before taking off for a chapter ride especially if the weather looks questionable, PH 707-575-6786.

LETS MAKE SOME NOISE!

Hello RECHOG!

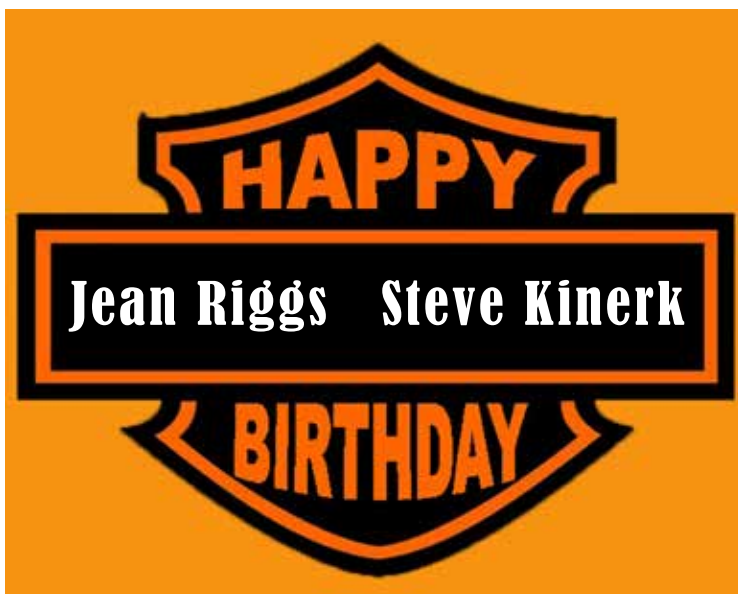

I can't believe it's already fall. It feels like we just rolled into summer last week. Oh well! Fall is the perfect time to go riding. The days are cooler which is great for long rides down the twisty backroads of Sonoma County. We have been pretty busy planning and putting on rides for the chapter lately. Unfortunately, we haven't had the showing we would have liked. But fear not, more activities and riding opportunities are just around the corner. We really do hope to see y'all out on the road. After all, I'm confident y'all joined our chapter so you can go out riding with your RECHOG friends. Please visit www.rechog.org or call our chapters ride hotline at (707)575-6786 to find out more about what's coming up.

Some of the chapter officers are already hard at work in planning out our upcoming Christmas Party. Please save the date: Saturday, December 2nd!! We have a few things planned out that will surely be a big hit. Please contact Dave McCombs to purchase your Christmas Party tickets. The Hilton hotel is also holding rooms for our chapter for the night of the party. Use the group code RECHOG when you book. You can reserve your rooms by calling 1-800-486-1542 or online at HiltonSonomaHotel.com. Room prices are: Standard \$109; Pool view \$259; Lanai \$284; King Jr. Suite \$284. Rooms will only be held until Oct. 18th. We hope y'all can join us for what we anticipate will be an enjoyable night of dancing, good food, and partying with great friends.

We will be nominating the 2018 primary chapter officers during the October general membership meeting. Those positions include the Director, Assistant Director, Secretary, and Treasurer. Whoever is elected to lead our chapter next year will appoint the rest of the discretionary officers as he/she sees fit. I understand that this change is not common but I assure you that this was aimed to give the next director the freedom to select the group that they feel presents them the best chance of success. I encourage everyone in our chapter to give some consideration on how you would like to make a difference. Please get involved and together let's make our chapter great again.

I look forward to seeing y'all on one of our upcoming rides. Get out on your Harley Davidson and have fun. Remember, each member can invite one guest to our chapter rides. As always, if you have any concerns or suggestions, please do not hesitate to approach me or any of the officers. We welcome any new positive ideas that is beneficial to our chapter. We are here to make our chapter the best we possibly can and to ensure everyone has a positive and safe experience.

"Ride safe. Ride hard"

Motorcycle Personal Protective Equipment

The origins of motorcycle leathers were in fact adapted from the Tank Corps Gear immediately following World War I. The Duster Coats, which more times than not would catch in the wheels and tracks, were switched out for short coats. The Wide Pegged Breeches were worn by some of the Motorcycle Police and by Dispatch Riders in World War II. The Classic American Perfecto Motorcycle Jacket with epaulets and diagonal zippers, made famous by the one Marlon Brando in "The Wild One", (1954) was actually invented in 1928 by Irving Schott, of Schott NYC in New York City. Leather Chaps, adapted from cowboy and rodeo gear, that trend was started by American Bikers in the early 1960s. The one-piece racing leather suit, (race suits of today) usually referred to as "Racing Leathers" was first used by world champion motorcycle racer Geoff Duke in the 1950s. Duke had the suit made for the purposes of streamlining, and not safety, and like most of the leathers used at the time, were made from horsehide.

So, why am I telling you this? Early protective gear (if you want to call it that) was made or adopted from other clothing styles for the purposes other than safety. "Dress for the Ride, not for the Slide" or "Dress for the Slide, not for the Ride" "Don't be a Squid" You don't have to ride or be a part of a riding community "HOG" for very long before you here of these three sayings. Except "Don't be a Squid" first time I heard this, I thought I was back in the service, San Diego, "Squid alert" often refers to Navy Sailors out on "Liberty". So I had to ask what a Squid is. The answer was brutal. Squid" a term used by some in the riding community, and has many definitions and varies depending on who you are asking the question to. A squid is someone on a motorcycle who is unprepared, uneducated, and/or unsafe.

It is important to protect yourself when riding on a motorcycle, be it the Heat, Cold, or Rain or Slide, you have to be ready. I am probably the biggest offender I have found recently, as I tend to find myself dressing one way for the short ride and completely the opposite for the long ride. The rides, long or short, when you go down you need to be protected from the brutality your body is going to take when it hits the pavement. At the very least, riding with a good pair of jeans, chaps, and a good leather jacket, and a good pair of riding boots and gloves, and a full face helmet will protect you from most skin abrasions you will receive when hitting the pavement, but it won't stop the bruising and broken bones.

The amour gear now being developed is so advanced, that just having the amour shirt and pant base layers (\$150-\$240) provides a much better protection for not only cold and heat as well as bruising and broken bones. Harley riding apparel, (if you haven't visited the dealership or website lately) has come a long way in advancements as well, (\$215-\$595 jackets) (\$225-\$450 pants) providing for weather comfort as well as the slide. Costs mean nothing to *Being ready, Being protected!*

"As always, have fun and keep the rubber side down and the shiny side up"
Vincent Mulligan Safety Officer

Harley-Davidson History:

2018 is the 115th anniversary of H-D! And keeping with historical tradition the motor co. releases anniversary model bikes every 5 years in celebration.

In 2013, the 110th anniversary, they offered 7 limited edition models. So for an extra \$1000 to \$3000, depending upon model, you might have gotten a numbered badge and tank medallion making your Harley unique even if you kept it completely stock. I once talked to an owner who was convinced that the anniversary models were significantly more valuable and were likely to appreciate upon resale. Unfortunately, I have never seen that on Kelly Blue Book or Edmunds or Cycle Trader resale estimates. Making the Anniversary extra like other extras we put on our rides, to please the owner, not to increase the resale value. And there is nothing wrong with that.

New for 2013 were also HD1 customization, where one could choose a variety of options for the Street Bob, or Sportster 1200 Custom made for you at the factory. Kind of like we used to order American made cars back in the 80's and prior years. And Hard Candy Custom Colors, a throwback to the 60's and 70's metal flake colors. The HD1 Customization didn't last. Just like American car buying. Today you buy a car or bike with a certain package of options included, called an LT or XT or Custom or Special. Apparently the "get it now" mind set has superseded the "I'll wait and have it my way". But the 110th Anniversary brought us no changes in motor or frame or new models. The big motors were still Twin Cam 96 introduced back in 2007. 2007 was a year before the 105th Anniversary.

2008 was the 105th Anniversary. The Rocker C frame was introduced, where the rear fender was fixed to the rear swing arm so it moved with the rear wheel and tire. It was cool looking, but not practical for overnight. Such is the fate of motorcycles. The best looking choppers, popular back then, were the least comfortable and no storage and no passenger! Already mentioned the Twin Cam 96 redesigned motor was released one year prior. Kind of like the Milwaukee Eight motor was released last year not on the 115th year anniversary!

2003 was the 100th Anniversary and Willie G. Davidson helped create a new silver paint and scheme. It was put on every model that year. And as neat as it was, the black stripe had hidden Harley-Davidson imprinted within, it grew tiresome quickly since it was on every model!

But arguably the most radical model every created by Harley was the V-rod, released in 2002. It

had an entirely new engine design, aided by the Porsche Car Co. in Germany, an entirely new tubular frame, and an entirely new style without a gas tank! It has a 3.7gal gas container, tightly fitted under the seat. The faux tank in front of the seat was a housing for the velocity air stacks underneath. And many did wonder, why release "The Big Reveal" a year before the 100th Anniversary?

And, as mentioned, 2018 being the 115th Anniversary, why release the Milwaukee Eight Engine in 2017?

Well unbeknownst to many, Harley Research and Development Engineers have designed and are building the changes for their bikes 5 to 6 yrs. in advance! And they have concepts 10 yrs. ahead. And forces beyond their control force them to release new developments sooner or later than they might like! Forces like governmental pollution restriction mandates. The V-rod is liquid cooled, lowering its smog output, which allowed Harley to meet the mandate of number of units produced with low emissions. Or the marketing department data projecting future sales, can influence when to release what changes. And then there are the logistics of, can they even make the concept work or fit.

So if we already have the new Milwaukee Eight powerhouse 114 cu. in. engine. What's new for the 115th Anniversary. What's all the Hub Bub? Bub!

Well, the Dynas are all Softails, and the Softails are all Dynas! The new mono shock positioned under the seat aligns with a new frame style which is 35 lbs. lighter yet 34% stiffer, making riding hard and true easier.

Lighter means faster, and the new internal balancer in the Milwaukee Eight 104 or 114 cu. in. means faster and smoother. And the mono rear shock is easily adjustable with a hand crank knob in front of the oil tank! New front shocks also. These changes replace the old softail and dyna frames. But Harley kept the classic names according to its style. The FatBoy still looks like a FatBoy. The LowRider still looks like a LowRider. And the FatBob is still, well, called a FatBob but it looks different. Awesomely different!!!!

Go online to see them. Or attend the next general Rec Hog meeting and I hope to show pictures of all the new models.

Oh! And you can still buy serialized limited edition Anniversary Eagle tank medallion and special paint colors on nine of the new models!
