RECHOG SUMMER RUN

Fun and games

Greetings fellow riders, have we had a good time this past month? There were great improvements in the weather and it seemed as though we took every advantage of it.

At the end of April we made a good showing at Rip City's Spring ride, I counted about 30 of our members wandering about and once again they did put on a great event.

May brought more great destinations and fun, I missed the ride to the Bay Model and wished I could have attended, I have never been to see it but I had things to do (I hear that I missed an excellent ride), our Spring Run fund raiser had a decent turnout and the route was great, Donna and the ride leads did a nice job putting that together, many thanks to them and La Prima Pizza for hosting us. Our Assistant Director Ian took us out to see the Thunder Birds in action at "Wings Over Solano" held at Travis A.F.B.

Mt. Diablo Hog hosted us for the first of this year's B.A.D. Target Rides, we showed with 12.8% of our membership which was not enough for a trophy or points but we did get the top award for the Chapter Challenge! Ian and I managed to best the second place winners score by 90 points. Once again Mt Diablo put on a fun and entertaining event.

The L.O.H Mothers Day Pic-Nick was another great event, a nice group of us met at our Dealership and after taking a short time of visiting and greeting each other Shelly took us on a nice ride along Tomales Bay to Pt. Reyes Station. Ian and I took a shortcut to the Marin French Cheese Factory to hold some tables and greet the group as it arrived. The chapter bought lunch for all the members and guest that attended, afterwards a few that still had room for a little something sweet were lead to a ice cream and candy shop in Novato by our "Director Of Desserts" Ian.

As of this writing that is about it for the fun we have had for the month, there are/were still plenty more rides and events to attend and I bet we will/did have fun on them.

As of this moment we only have 12 volunteers for the S.F. Marathon on July 23rd, we need several more. As stated before, this is our largest fund raising event. The proceeds help us to fund events such as the Mothers Day Pic-Nick and the Holiday Party, it also helps with other chapter sponsored activities and the cost incurred in the operations of this group.

My thanks to each and every one of you for being a vital part of the Redwood Empire Chapter,

Now Lets Go And Make Some Noise!

Dave

Hello RECHOG!

We had some really great rides this month. I would like to report that our chapters Spring Poker Run, LOH Mother's Day picnic, and both the B.A.D. rides were well supported. A big THANK YOU to all who came out and put down some miles with us this month. If you haven't been riding much lately, don't worry. We have so much more fun rides and events planned out for this month and the months to come. Please check out our websites calendar at www.rechog.org/calendar for a detailed list of what's to come.

The plans for our Summer Run event is coming along nicely. Our small group of volunteers are working hard to make sure we put together a great event we can all be proud of. If you have any ideas on something you would like to see happen, please do not hesitate to bring it up anytime to any of the officers or you can attend the Summer Run planning meetings every 2nd Thursday of the month. One thing to remember is that our Summer Run event is exactly that..... OURS! We need your help. As we have seen in the past, it takes a large group of dedicated volunteers to make things run smoothly. Please talk to me or any of the chapter officers for volunteer opportunities. One area of the event we need help with is gathering raffle prizes. I would like to challenge each and every member to come up with one brand new item to donate as a raffle prize.

Contact the Director or Assistant Director for any questions. We are doing everything we possibly can to have as many prizes available. The more raffle prizes we present, the more income the chapter generates. We hope y'all rise up to the challenge.

I look forward to seeing y'all on one of our upcoming rides. Get out on your Harley Davidson and have fun. Remember, you can invite a guest to any of our chapter rides. As always, if you have any concerns or suggestions, please do not hesitate to approach me or any of the officers. We welcome any new positive ideas that is beneficial to our chapter. We are here to make our chapter the best we possibly can and to ensure everyone has a positive and safe experience.

"Ride safe. Ride hard"

What does the designation of "B" stand for on the engine type?
For example a 2000 softail engine would be a Twin Cam 88B.

Answer: Balanced Crank
The balance crank has more horsepower, but does have more vibration.

A Motorcycle Helmets Shelf Life

Does a motorcycle helmet have a shelf life? With so many manufactures of motorcycle helmets on the market with their ever changing technologies, styles and colors I think this wouldn't be something to worry about. When you purchased your current helmet was style, fit and comfort you were going for and you finally found one that's enjoyable to wear?

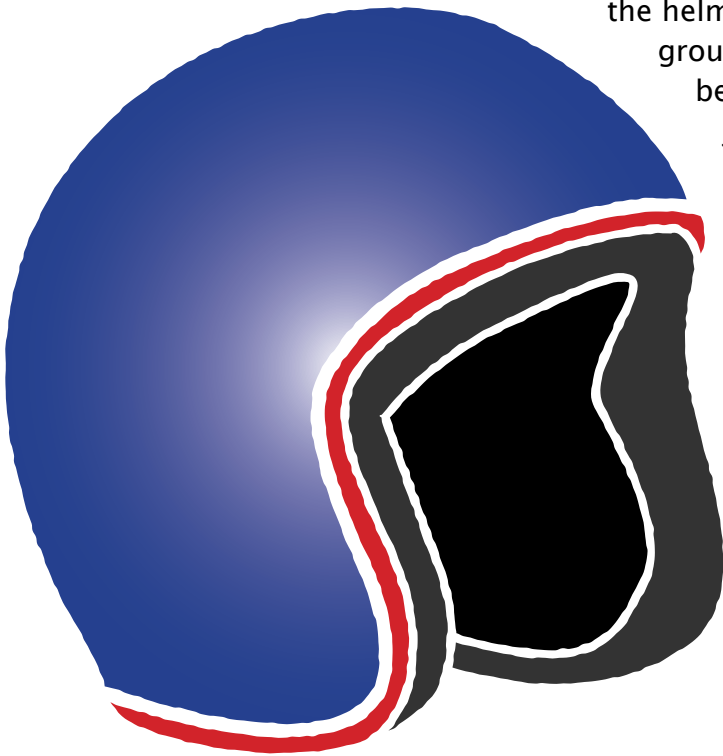

So I did a little research and contacted a few manufactures through their websites (Bell, Shoei, Bilt, Quora, and Harley-Davidson) and I asked them "when should I replace my current helmet"? Their answers were pretty much about the same. They all suggested a five-year replacement recommendation that is based on one; the glues, resins and other materials used in helmet production can affect liner materials. Second; your hair oils, body fluids and cosmetics, as well as normal "wear and tear" will also contribute to the helmets degradation. Third; they all mentioned that their experience in manufacturing indicates there will always be a noticeable improvement in the protective characteristic of helmets over a five-year period due to advances in materials, designs, production methods and the standards.

But is that it? No! What if you dropped your helmet (myth or fact) do you have to buy a new one? The general answer was probably not. Helmets they explained are quite durable otherwise, at least all that are DOT approved. Frequent dropping or "spiking" a helmet on the ground (not

recommended), or other hard surfaces may eventually degrade the helmet's performance. Similarly if the helmet falls to the ground at highway speeds "unoccupied", the owner must be aware that some significant degradation may have just occurred and probably should purchase a new one. In general they said, the real damage comes when the helmet contacts an object with a head inside.

The last two things they mentioned was one; If you notice the helmet getting loose or some of the lining coming out or it leaves little black flakes in your hair, then it's time to retire it, whether it has reached the five years or not.

Second; storing the helmet after a ride or for prolonged periods the helmet should always be returned to the helmet bag that it came with in and stored in a cool and dry place.

Rec-hog:

Well the rain stopped and May has been perfect riding weather. It's sunny and still cool. And this month started off with a Cinco de Mayo ride to Sausalito. After a quick "pee" stop outside the sailboat building training school, we headed to Marin headland to look down upon San Francisco Bay and Bridge. Then we rode to the base of the Golden Gate Bridge to take pix from the water looking up at the Bridge. Vince Mulligan pointed out that the concrete pier at that location was originally built for the WWII military who raised and lowered netting from the Bridge to prevent enemy submarines from entering the bay! Road Captain Marc Mendelson then led us to lunch on the pier. Delicious, albeit expensive. Hey, it's Sausalito. Then on to the Army Corp of Engineers Bay Model which is a working scale model of the entire bay area encompassing an area equal to two football fields. Back in the 1950's, no computers were available to calculate the tides, so this model was constructed to study the tides as well as the mountain water run off into the Sacramento and San Joaquin rivers which feed into the bay area. The site used for the model was the enclosed building on the WWII shipyard, which built huge Oil Tankers to supply fuel to our military warships and aircraft in the Pacific! The model simulates the four tide changes that occur every 24 hours, but does a tide change every 16 minutes. Marc pointed out that the tide under the Golden Gate Bridge can be 6 knots, which is faster than many sailboats. Taking them out to the Pacific Ocean whether they want to or not. Allow them only to return 6 hrs. later when the tide changes. We then road continuous switch backs to reach the top of Mt. Tam, to hike around the panoramic trail that encircles the mountain top. The views of the entire Bay Area were breathtaking, and tied in nicely with the model we walked through earlier in Sausalito. Then onto US 1 coast line to Olema.

That evening SCHD hosted a "See and Be Seen Workshop". Not only did they provide food and beverage, but Jeff from the parts dept. provided an excellent presentation on LED lighting upgrades for your bike. Everyone received a \$25 off coupon, an H-D accessory catalog, and additional printed info. Several free raffle prizes were given out as well, valued up to \$75.

Donna Fess led a great twisty ride during the RecHog Spring Run, over Trinity Road and Oakville Grade to the Napa Valley to Calistoga.

Mt. Diablo HOG B.A.D. ride was enjoyed by all the pirates in search of 'booty'.

Several more scheduled rides this and next month are sure to be winners also.

Rec-hog History:

Mel Del Gallo was the directory in 1995 and 1996. Their meeting place was Cattleman's also, except it was located in Montgomery Village. Meetings started promptly at 7:30 pm and if you were late or unruly, you got fined! Dues back then was \$12 per member. They volunteered to help manage the International Bike Show at the Cow Palace in S.F. They raffled off a New Harley as a fund raiser. The most popular vendor venue was the Redwood Run. They did a ABC's of Touring run, I believe, before National HOG, by having members use a copy of Hog Tails as the magazine in the photo. They left here and rode to Quincy, Ca. They also had speakers at their chapter meeting. Joe Dowd, then Regional Manager of HOG, spoke at one of their meetings. Joe Dowd went on to become the Asst.

Director of HOG International.

Ladies of Harley had their own meetings in addition to the Rec Hog Meetings.

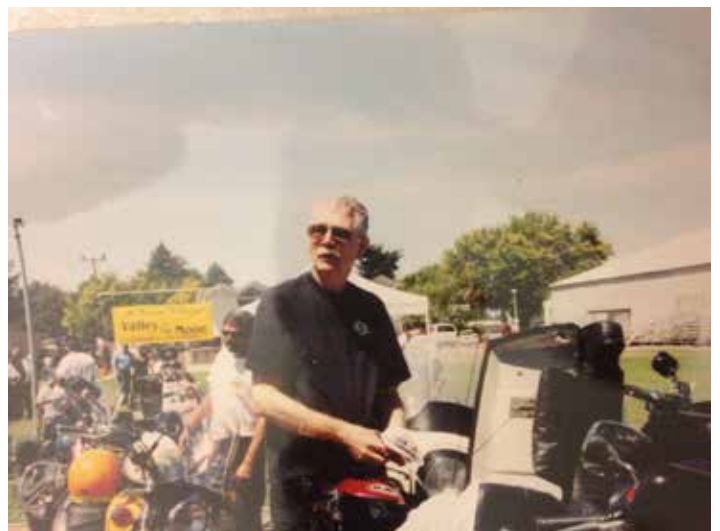

Hog Tails newsletter became sketchy, sometimes only both sides of one page. Sometimes up to four pages, covering meetings and rides. It was black and white and never had photos. When they tried photos, they were unrecognizable.

The Archives do contain some color photo prints. As one would see in a photo album separate from the newsletter.

1997 the director was John McGinnis. 1998 and 1999 director was John Lemos. And in the year 2000 it was Mike Loomis.

Jim Jones, a current member, was a member back then along with one or two members, who may recall these directors.

Anyone interested in viewing the Archives may contact me via Historian@rechog.org

RECHOG ARCHiVES - 1999

WINGS OVER SOLANO AIRSHOW

RECHOG SPRING RUN

MAY GENERAL MEETING

MT. DIABLO TARGET RIDE

Current info as of May 25^h. Please review website calendar at rechog.org & call the Ride Hotline for latest updates and additions 707.575.6786.

JUNE 01

RECHOG GENERAL Chapter membership meeting, held the first Thursday of every month, at Cattlemen's in Petaluma. Eat and socialize beginning at 6pm. Meeting begins at 7pm. Please sign-in for: Birthday for that month drawing, next month birthdays that go to Tales of the Woods, Guests, and get your FREE Member ticket.

02

Friday Off Work Ride
Brian Bokkin will lead a ride. Meet at SCHD at 10am, Depart at 10:30 am.

03

Livermore HOG Summer Ride: Meet at Johnny's Java 7:00 am. Depart at 7:30am. Let's support our sister chapter, Livermore HOG. You have to register online (FREE) to attend; www.livermorehd.com/summer-ride. Join us for a scenic 2-hour ride through the Livermore countryside.
